A copy of the Report of the Expert Committee is attached for your information and record. The observations and recommendations of the Committee may be kept in view while implementing the Scheme. Also, the Scheme may be implemented as per the Action Plan and in accordance with the provisions laid down in the guidelines for XII Plan which are available on UGC website ([www.ugc.ac.in](http://www.ugc.ac.in)).

As informed during the interaction, the CE funds should not be used on un-aided/self-financing department(s)/course(s) of your College. A certificate to the effect that the above instruction will be complied with may kindly be sent immediately. It was also observed during the interface meetings that certain colleges are still working as 'Composite College'. In such cases, the CPE funds should be used only for the degree/P.G. programmes and not for the "+2" programme. A certificate to this effect may also be sent to this office that provisions laid down in the guidelines will be strictly followed.

Further, balance 10% grant of the current phase is being released to your college separately subject to the receipt of the statement of expenditure and audited utilization certificate against the grant already released. You are requested to submit the same to UGC at the earliest, if you have not already submitted it.

With kind regards and best wishes.

Yours sincerely,

(K.P. Singh)

**SPEED POST**

D.O.No.F.12-1/2003 (NS/PE)

November 2, 2004

Dear Principal,

3 NOV 2004

This has reference to your meeting with the "Expert Committee on CPE" held from 4<sup>th</sup> to 11<sup>th</sup> October, 2004 in the office of the Commission to finalize the budget and Action Plan of your college.

Enclosed please find the budget as approved by the Chairman, UGC in respect of your college for the years 2004-05 to 2006-07, based on the recommendations of the Expert Committee.

Based on the Accreditation certificates submitted by the colleges during the discussion with the Committee, the allocation has been revised in respect of a few colleges. In such cases, the balance amount due to the colleges on account of the revision has also been released separately.

**You may now go ahead in spending the amount already released to you as per the Budget enclosed.** You may use the available amount to purchase the equipments and other items under non-recurring grant. The balance amount may be used for recurring grant. **The next instalment will be released only after the evaluation of your college.**

Even though you were requested to give a road map of development of your college under CPE Scheme for each of the three years, either it was not spelt out very clearly or not given. Therefore, you are once again requested to formulate a time bound programme for three years with appropriate milestones. **The plan thus developed may be sent immediately which will be useful for evaluating the colleges during the next three years.**

As informed to you during the discussion, the CPE funds should **not** be used in respect of self-financing departments/ courses in your college. **A certificate to the effect that the above instruction has been complied with may kindly be sent.**

During the discussion it was also observed that still certain colleges are working as a Composite College. In such cases, the CPE funds should be used only for the degree programmes and **not for the "+2" programme.** **A certificate to this effect may kindly be sent.**

Contd...

Continued...

In respect of Government/ Constituent Colleges, the faculty and Principals should **not** be transferred at least for a minimum period of three years, w.e.f. 2004-05. This may kindly be brought to the notice of the authorities concerned in your State/University. **A copy of the letter sent to them may be endorsed to the undersigned.**

By the end of April every year, an Annual Report may be prepared by the college and sent to UGC. The Annual Report should contain salient features of the steps taken by the college in implementing the CPE programme. The innovations introduced in the curriculum, teaching, evaluation, etc., may be highlighted. The report should not exceed **two pages of A-4 size paper. The report may be sent by E.mail and by Courier** so that it could be consolidated easily and sent for publication in the UGC Annual Report. **This may kindly be confirmed.**

In case you need any clarification kindly write to me.

With regards,

Yours sincerely,

## Peer Team Report Cycle -1<sup>st</sup>

NAAC for Quality and Excellence in Higher Education

### *Peer Team Report on Institutional Accreditation of SS Jain Subodh PG College Jaipur, Rajasthan*

#### SECTION I: PREFACE

Established in 1954 SS Jain Subodh PG College under grant in aid is affiliated to the University of Rajasthan. It is one of the oldest colleges in the city of Jaipur. During 1966 the college came under the UGC recognition of 2f and thereafter in 1971 under 12 B. The college has turned coeducational from 2001-02.

Located in the heart of Jaipur, the College covers an area of 10 acres. The college aims at the dissemination of knowledge through the conduct of various university courses and to relate them to our societal needs. Its objective is to amalgamate the liberal education with vocational education for the benefit of society. Besides producing human resources it also aims to provide good citizen to become a catalytic agents for the desired transformation of society. It has four UG, five PG, one diploma programme three vocational programmes and offers Ph.D. programme as well. The college has highly qualified faculty comprising 64 full time teachers (37 out of 41 sanctioned posts in aided college and 27 full time teachers paid by the management also. There are 13 part time teachers.). The student strength during 2002-03 was 2267 for Undergraduate and 94 students for Postgraduate courses and Ph.D. programmes. There are 37 permanent faculty members working in the college of whom 27

possess the Ph.D. There are 13 part time teachers with six PhDs. The percentage of passes in various courses is generally above 83 percent.

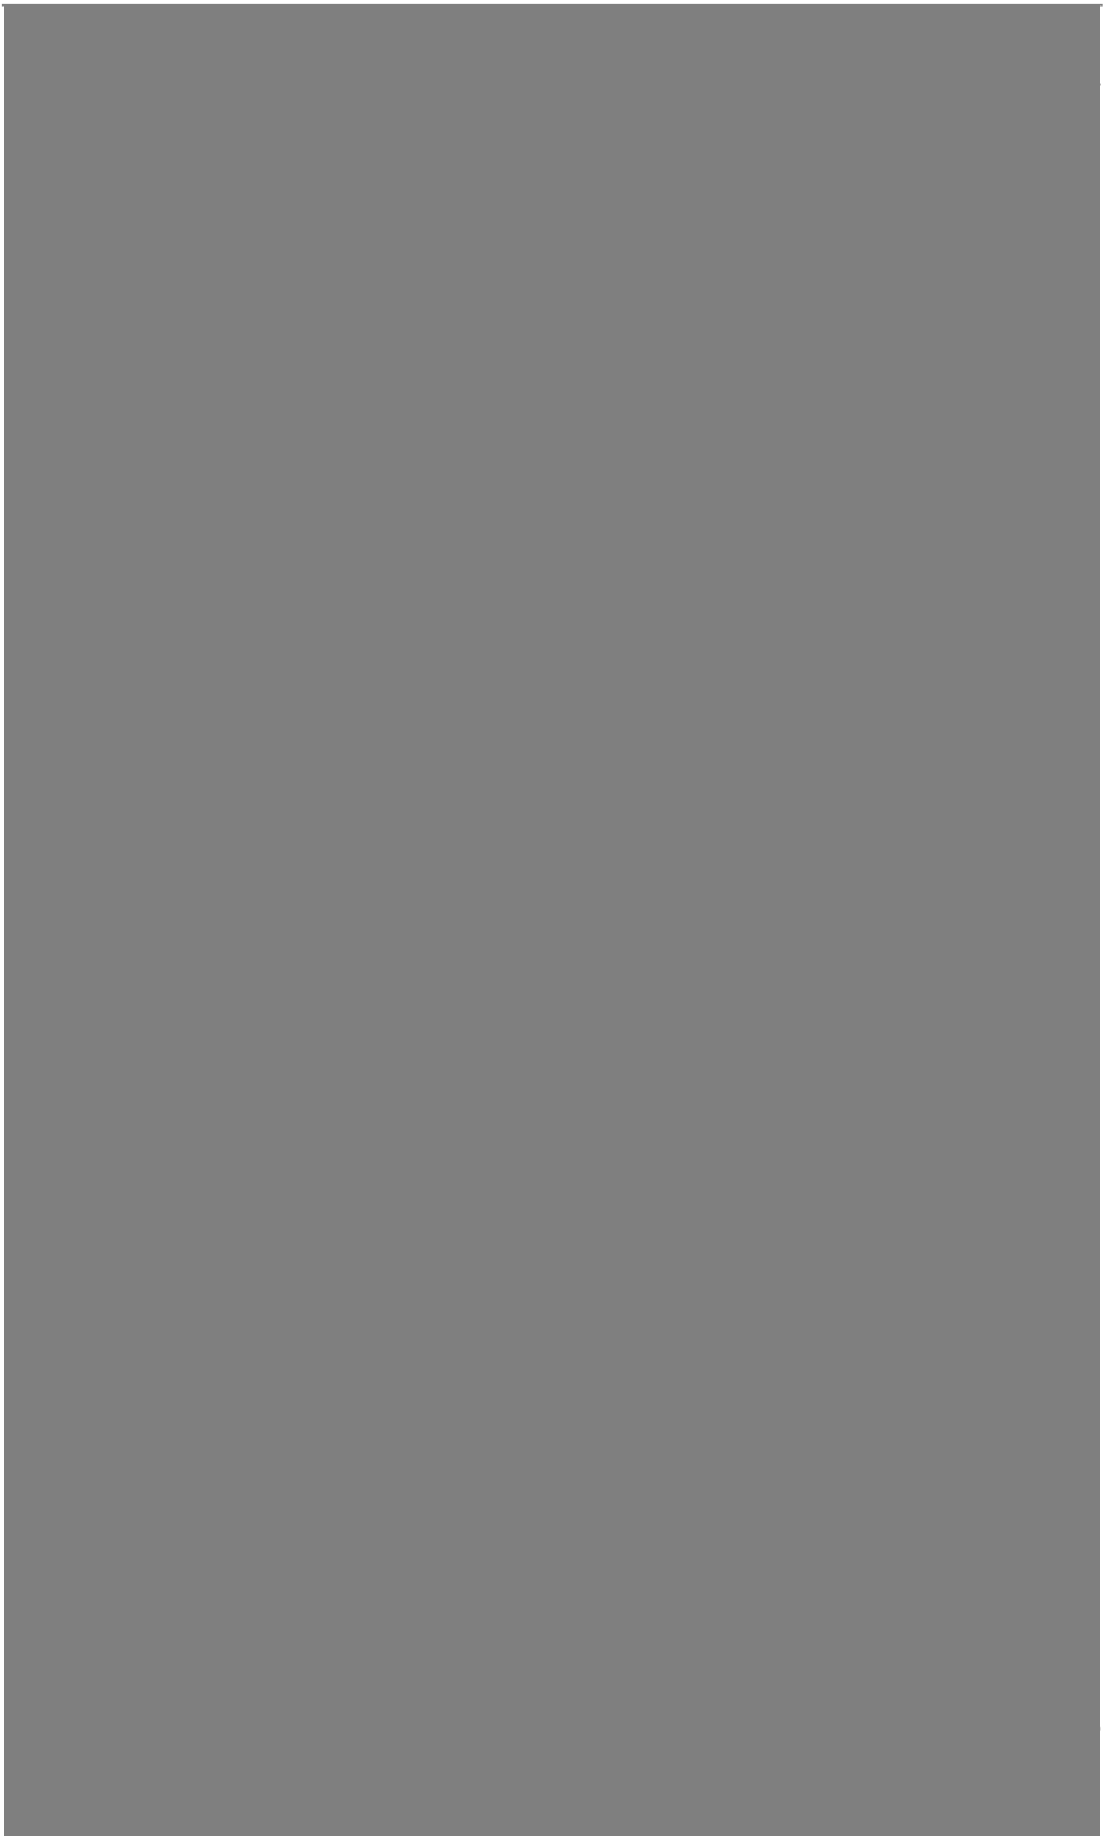

The pattern of the academic work in practice in the college is of annual system. The college works for six days a week and the average number of working days of the college is 260 days. The library is accessible to the students from 8.00 am to 4.00 pm on all working days except Sundays.

The college has adequate focus on sports, games, NSS and extension activities.

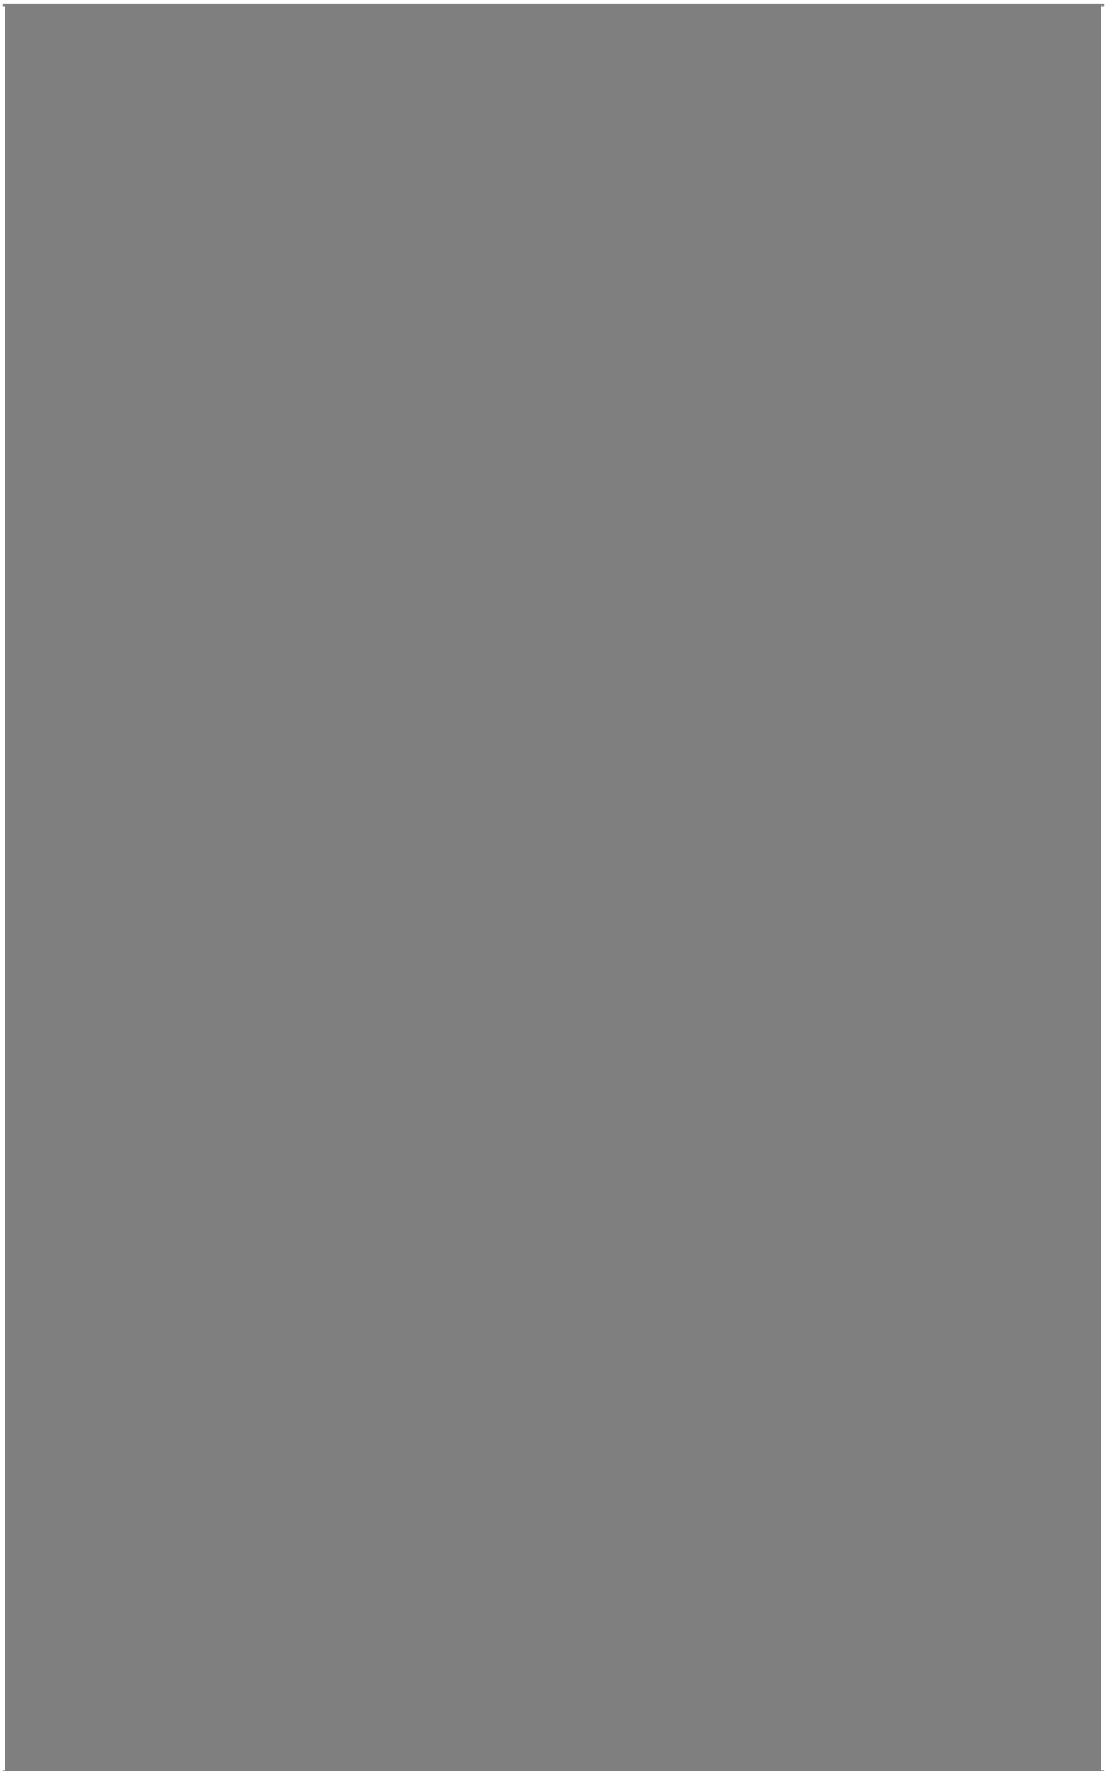

The college volunteered to be assessed by the National Assessment and Accreditation Council and submitted the Self-study Report to the council for evaluation in November 2003. The Peer Team constituted for assessment of the college is:

1. Shri GA Pathak, Chairperson  
Principal, HL College of Commerce,  
Ahmedabad-380009
3. Dr. G.T. Paratkar, Member Co-Coordinator  
Principal, VG Vaze College, Mulund East,  
Mumbai-400081

The Peer Team visited the college for two days, 12<sup>th</sup> and 13<sup>th</sup> March 2004. The team carefully studied and analysed the Self-study Report submitted by the College. During the institutional visit the team went through all the relevant documents, visited the departments and the facilities and interacted with the various constituents of the institution. The academic, co-curricular, extra-curricular, sports and extension facilities of the institution were reviewed. The Peer Team interacted with the management, committee (Shiksha Samiti) Principal, staff, students, parents and alumni of the college. Based on the above critical analysis and seven criteria identified by NAAC,

NAAC for Quality and Excellence in Higher Education

considerations for students of minority community, physically challenged persons, sportsmen, children of ex-servicemen.

There is a seminar hall and lecture auditorium equipped with audio-visual aids, Computer Centre for the appropriate use.

There is a provision for assessing students through periodical tests by the concerned departments. The teaching schedules, syllabus is covered as per pre-announced teaching schedule. Bridge/remedial classes are conducted for educationally disadvantaged students as per request basis. Advanced learners are encouraged to use internet facility hence there is a need for networking and internet facility for students. It is understood that the college efforts are afoot on this line. There is an effective feedback system from students assessing the quality of teaching. A special mention may be made about the All India Principals Conference and subject conferences were organized by the college. Apart from classroom teaching, seminars are organized at regular intervals to motivate the students.

The use of LCD, OHP and audio visual aids are practised to supplement classroom teaching. However, there is a need to develop a centralized audiovisual facility. Assessments and Seminars, which form an integral part of the evaluation methodology, enable the respective departments to assess the students.

The college has 77 faculty out of which 37 faculty members are on permanent roll and 27 are on temporary 13 on part time basis. The recruitment of permanent staff into the college is as per the norms of Higher education department of the State Government. Due to the restrictions on recruitment by the State Government, the management has appointed the teachers on temporary basis. There are totally faculty members teaching for self-financing courses.

85 percent of classes are taught by full time faculty.

NAAC for Quality and Excellence in Higher Education

The college encourages teachers to avail themselves of the opportunity of faculty improvement programme of the UGC and participation in academic conferences, refresher courses and orientation programmes. Many of the faculty members have availed themselves of this opportunity and 7 teachers have availed this facility.

The college has linkages with the following institutions:

International and National Collaborations

1. ICTP, Italy
2. Royal Institute of Technology (Sweden)
3. Rosswel-Park Cancer Institute, New York (USA)
4. SAMEER, IIT Mumbai
5. CLRI, (CSIR Unit), Chennai
6. ISRO, Bangalore
8. Nuclear Science Centre (New Delhi)
9. University of Madras, Chennai

The student's performances at the University examination form the yardstick or basic parameter to identify the strengths and weaknesses of individual teacher. There is an institutional mechanism for faculty appraisal.

The College has 275 days of instruction during the reporting year.

***Criterion III : Research, Consultancy and Extension***

The college has highly qualified faculty comprising 64 full time teachers and 13 part time teachers. The student strength during 2002-03 was 2267 for Undergraduate and 94 students for Postgraduate courses and PhD programmes. There are 37 permanent faculty

members working in the college of whom 27 possess the Ph.D. There are 13 part time teachers with six PhDs. The college encourages teachers for Research programmes. Three of the faculty are registered for PhD programme.

The College has 13 ongoing projects with a total outlay of Rs 49.84 lacs. A number of faculty members have participated in national (All India Physics Conference) and international conferences and seminars. Five faculty members have participated at the international seminars. The teachers have published 65 text books and research books and 236 research papers in various journals which is commendable. The faculty gets management support in their efforts towards publications.

The research atmosphere in various departments need to be encouraged involving student groups under Summer Research Programmes, to work on mini research projects under the guidance of teachers. The faculty members need to be motivated to publish their research work in journals. The College was selected as a model college by NEPA.

The college may take up consultancy services in the industrial and other sectors. Competent teachers and departments need to be encouraged to offer consultancy. This exposure will not only enrich the faculty but also be of immense help to the students.

The extension activities are undertaken in the institution in collaboration with Government Organisations as well as with NGO's. Many community development and humanity programmes have been conducted such as medical checkup camp, health and hygiene awareness, Aids awareness, blood donation camp and environment awareness, through NSS unit of the institution. The College has taken up the project of cleanliness of Rani Ki Chhatri through NSS unit which has attracted the tourists. The 6

NSS cadets of the College participated in RD Parade in 2004 which is a Commendable feature. The College has healthy interaction with students.

*Criterion IV: Infrastructure and Learning Resources*

The College covers an area of 10 acres with a lush lawn enriched with abundant greenery and liberal civil structures for accommodating administration, teaching, extracurricular activities and several play grounds. Available land is adequate for future growth and development of the institution.

There is also a Common facility of air-conditioned auditorium. The campus provides for 36 classrooms, 6 Tutorial room, 2 Seminar Halls and 1 lecture theatre, Health center, Computer center, Canteen, workshop, Guest-house and playground. There are 5 Computer labs with over 110 computers.

The College maintains its infrastructure by engaging technicians, mechanics, electricians, plumbers, and carpenters from time to time. The computers are maintained under annual contract.

The three storeyed College library remained open for 275 days during the reporting year. It has over 52100 books. The library subscribes to 26 journals, 49 magazines/periodicals and newspapers. A Committee, under the overall guidance of the Principal manages the College Library. The library works for six days a week between 8.00 a.m. and 4.00 p.m. The College has done well in providing open access system to student and browsing facility through computer that will save the time of the users. The college library has automation facility with computer access. However it is recommended to have internet facility alongwith creation of CD library. It opens new vistas to students and puts a world of learning

*NAAC for Quality and Excellence in Higher Education*

resources in front of the students. The internet revolution fosters the change from teaching centered system to learners centered system. It was heartening to know that each department has its own small library.

The college has a book bank facility. There are 700 books offered under this scheme to needy students.

On an average around 300 students visit the library and 100 books are borrowed by students in a day. The borrowers' register shows that faculty borrows on an average 1500 books per year.

The college has spent Rs 1,12,000/- on books and periodicals for the year 2002-03. For an institution offering UG as well as PG courses this budget allocation is meagre. The College added 1244 books during the year 2002-03.

The college has a physical education center, physical education teacher and coaches. During 2002-03, the college had 20 national level, 35 state level and 20 University level sportsmen covering athletics, football, kabaddi, weightlifting and basketball. The notable games and sports in which students distinguished are Tennis, Weightlifting, Cricket, Cycling and Volley ball, Boxing. 6 students participated in international sports in various games/sports. To make significant stride in national events the College will do well in providing professional coaches for certain selected sports to train sports talent. In rotation, the College can select and promote sporting events. In this activity, College alumni with professional sports background can contribute significantly.

The level of office automation is very good. There are 05 computer laboratories with over 110 computers. There are 03 computers in the office and one in the College Library. The Principal has one computer in his office. The laboratories have relevant

NAAC for Quality and Excellence in Higher Education

adequate software to deal with PG education. The institution will do well in enhancing internet facilities to students. It opens new vistas to students and puts a world of learning resources in front of the students. Internet revolution fosters the change from teaching-centered system to learner-centered system.

*Criterion V: Student support and Progression*

The institution is located in an urban setting. Yet, the composition of students constitutes from middle and low-income groups, also to whom education is a major tool of livelihood. The average student dropout rate is low. The pass rate for UG and PG courses is around an average of 83 percent in all faculties.

The list of prominent alumni shows that a great majority is inclined towards the academic profession. The prominent alumni include doctors, jewelers of members of the All India Services.

The NSS is active in conducting Seminars, AIDS awareness programmes, Blood donation drives, and youth camps.

The College students need a forum where they can participate in the decision-making mechanism of the College. An association of student representatives can coordinate extracurricular activities. Such a platform will groom the students in democratic systems and also synergize various activities.

It is heartening to know that around 40 students have passed UGC- CSIR (NET) examinations and 15 students have cleared civil services examinations.

The college has an employment cell and an honorary placement officer. The alumni help the cell in their activities. The

*NAAC for Quality and Excellence in Higher Education*

activities mostly include guest lectures and display of information. A college with middle and lower middle class student population with many of the students as first generation learners will do well with extensive vocational guidance. There is a need to strengthen vocational guidance and placement activities on regular basis. The College has started co-education recently. The response is very positive. The girls expresses satisfaction about treatment given to them in the college. The facilities for girls are adequate.

Personal counseling services need to be provided to the students by trained counselor. A counselor, even on a part time basis, will help students immensely in managing adolescence problems common to their age.

Under student welfare schemes the College offers student scholarships as per State Govt. Rules. Under students' funds the college has also given scholarship of 61,800/- during 2002-2003.

### *Criterion VI: Organisation and Management*

The primary objective of the institution is to inculcate attitude of building National character and promote ones own decision-making power.

In the governance of the College, there are mechanisms to coordinate and monitor efficiency. The hierarchy of the management is exemplary for the grant of education in this part of the country. The hierarchy of the management may be stated as follows:

1. Over 7000 Primary members of the Shiksha Samiti Committee the Management Body through direct election of 11 members and 4 co-opted members from various fields. Each member

*NAAC for Quality and Excellence in Higher Education*

of the management committee is assigned as a Convener of each educational unit for a period of three years for the proper governance of coordination of the institute. The Principal of the College is the Executive Head under whom various members are nominated from various fields. The Head of the Dept. and several committees are formed for the conduct of the academic progress of the College.

The fee structure of the college is as per State Govt. and University Rules. The internal audit mechanism experts and supports the statutory Annual Audit which is done regularly. There is a budgetary control system in the college.

The Subodh Institute of Information Technology provides training in operation for non-teaching staff. However, professional development programme for non-teaching staff in communication, office management, or personality skill is yet to be planned. The grievance redressal cell for the faculty and the students is taken care of by appropriate committee headed by the Principal.

The governance is mostly between the Governing body with advisory role and the college staff council with executive functions. The natural hierarchy of posts governs the efficiency of the non-teaching staff. The administration is democratic which gives equal opportunity to all in decision-making.

The unit cost of education is Rs 8587 inclusive of salary expenditure. The budget shows a moderate deficit, which is made good through the institutional sources

The College will do well in seeking third party evaluation, periodically, from its institutional peers, students, alumni or parents of the students. The College can formulate faculty evaluation by students, which will greatly help in fine-tuning the skills of the faculty to the needs of the students.

### *Criterion VII: Healthy Practices*

The college has shown considerable progress since its inception in 1954. The management is striving hard to achieve its vision of holistic. The various programmes are carefully planned and implemented. It offers traditional courses mostly and a few applied courses on a self-finance basis.

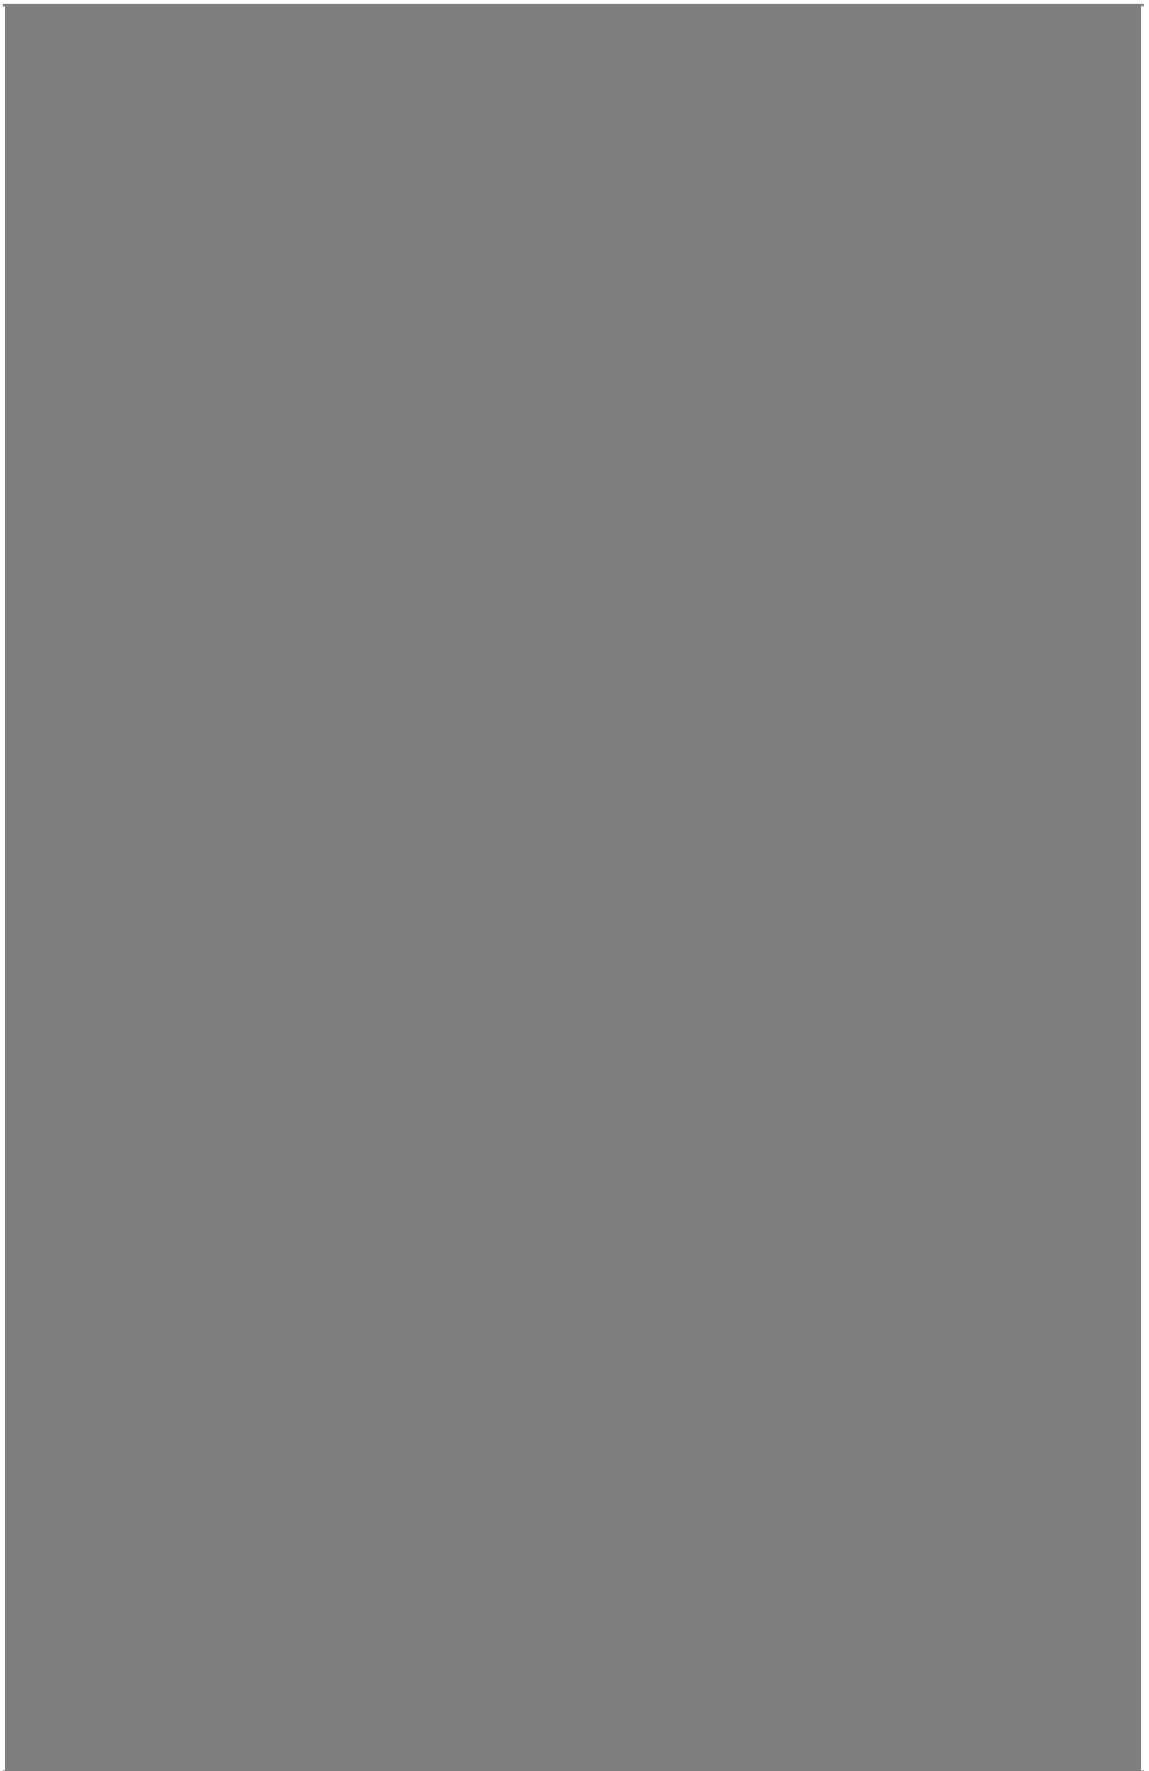

The college is taking care for overall personality development of students by encouraging their participation in debates, quiz programmes and sports etc.

#### *Some of the healthy practices are:*

- The college has sound linkages with institutions in the country and abroad.
- The management could collect substantial amounts as donations from philanthropists, for maintenance and development of the infrastructure of the college.
- The faculty has visited institutions abroad under faculty exchange programmes.
- There is a system of collecting feedback from out going students. This is looked upon as a novel practice.
- The management recognizes the dedication of the devoted staff members every year on Independence day/Republic Day which proves to be a source of motivation and giving them a fillip for doing much better in environment.
- Counseling and remedial assistance is provided to the students especially in language skills.

*NAAC for Quality and Excellence in Higher Education*

- Variety of teaching methods is used in professional courses, which facilitate teaching and learning processes more effective.
- Students undergo medical checkup thrice each year
- The college has built a niche for itself in the extra curricular and NSS activities. The college has book bank facility in the library.
- The computer laboratory with the latest systems operational. The management of the College gives a concession of Rs. 3600/- to per annum to son/daughter of staff of any institution run by the management as a nice gesture to the welfare measure of the staff. Besides, a compensation is also given in the time of calamity as a special help.
- The college has effective mechanism for optimizing utilization of facilities.
- Financial aids are given to the needy students.
- The college has produced sportsmen who participated in National events and won awards.
- The College organizes regular debates, quiz programmes and invites Guest Lectures.
- There are no strikes reported so far inside the Campus.
- The students are adequately motivated to participate in NSS activities.
- The admissions are purely merit based.
- Alumni Association is quite well established and very supportive.
- The college enjoys high reputation in the State.

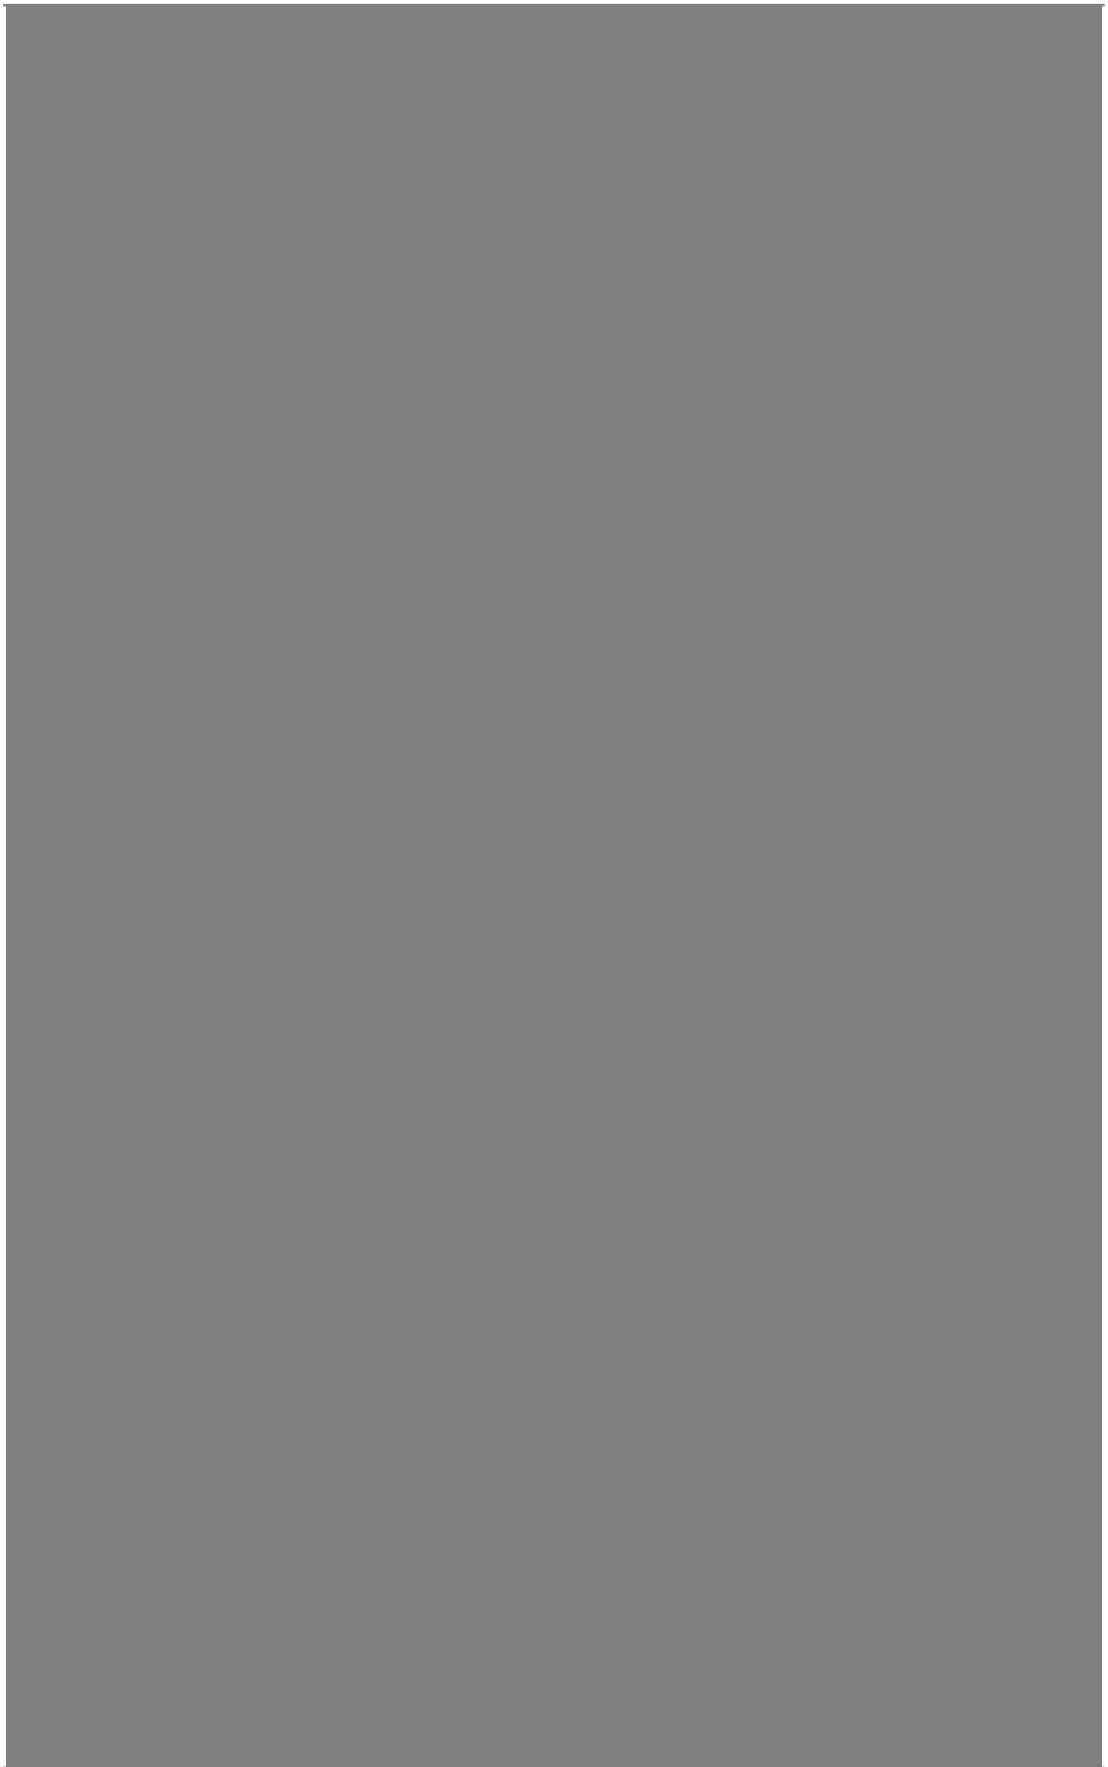

there are teachers possessing PhD degrees and having aptitudes for research. The committee is pleased to see that several teachers have even published papers in National /International journals. It is necessary to see that their expertise is utilized for undertaking research projects involving students and promoting academic environment in the campus.

The infrastructural facilities are good. There is a Computer Center with over 110 computers catering to the needs of the students and the members are pleased to note that most of the computers are provided with internet facility, which facilitate access to world wide learning resources. As a step towards modernization, the management may think of establishing an electronic classroom, which fosters the change from teaching-centered system to learner-centered systems.

The Management is giving all the encouragement and providing facilities for students to excel in sports and games. It is heartening to note that the students of the College, won many awards in District, State, National level sports events and brought laurels to the institution. It is necessary to see that the trend set continues in future also.

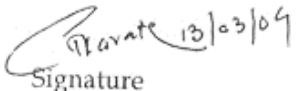

The infrastructural facilities provided in the library are satisfactory. However, the committee feels that a college with ambitious curriculum needs larger collection of latest books in the library. The library budget needs to be enhanced. Internet facility in the library may be provided at an early stage on priority basis and

NAAC for Quality and Excellence in Higher Education

maintaining the academic atmosphere is well appreciated. May this institution of higher education catering to all the segments of Society grow from strength to strength in its pursuit of excellence.

3.3 Institutional Opportunities	<ul style="list-style-type: none"> <li>• Offering more consultancy to industries and earning research funds thereby</li> <li>• Introduction of subjects like Statistics, Bio-sciences, Catering / Event Management, Fashion Design, foreign languages.</li> <li>• Attracting more overseas students and getting international acclaim.</li> <li>• Scope for augmentation of floor space by vertical expansion.</li> <li>• Utilizing the available sports infrastructure by introducing B.P.Ed. programme of study.</li> </ul>
3.4 Institutional Challenges	<ul style="list-style-type: none"> <li>• To acquire autonomous status and utilize autonomy for upgradation of curricula in line with global needs.</li> <li>• To attract more students from other states and overseas students.</li> <li>• To compete with foreign universities which may open shop in the State of Rajasthan.</li> <li>• To utilize the existing language laboratory to offer courses on foreign languages, both European and East Asian.</li> <li>• To retain good and experienced faculty.</li> </ul>

Peer Team Report on S.S.Jain Subodh P.G. College

**Section IV : Recommendations for Quality Enhancement of the Institution**

- The College may consider introducing Statistics, Bio-sciences, Honours programmes in existing subjects and P.G. Programmes of study in more subjects.
- College may try to acquire land for construction of a boys' hostel and a guest house.
- Junior teachers may be encouraged to work for Ph.D. and apply for research projects on emerging areas and topics related to local needs.
- Inter-disciplinary research within the institution or in collaboration with other institutions may be promoted.
- College may establish collaboration with industries and obtain feedback from them regarding curricula and teaching-learning.
- Some class rooms may be equipped with in-built speaker system and be provided with LCD projectors.
- College may install a lift for the use of differently-abled students and elderly staff members.
- College may introduce training programmes for competitive examinations (State PSC, UPSC etc.), skill development and entrepreneurship for both present students and alumni.
- The College has reached the strength and maturity for functioning as an autonomous institution. It may now seek academic autonomy.

I agree with the observations of the Peer Team as mentioned in the report.
