Passing Marks is 40% including CIA

**Objective:**The paper will familiarize students with the basic psychological processes and on some important applications of Psychology

**Unit- I**

Introduction to Psychology: Definition, Goals and Scope of Psychology. Psychology as a science. Modern Perspectives Psychodynamic, Behavioural, Humanistic, Cognitive, Evolutionary and Socio-cultural .Scientific methods of Psychology-Experimental, Observation, Surveys and Case study. Fields of Psychology.

**Unit- II**

Biological Basis of Human Behaviour : Structure and functions of Neuron. Structure and functions of the Central and Peripheral nervous system.

**Unit- III**

Sensation, Attention and Perception: Sensation: Meaning, sensory receptors. Attention: Meaning and characteristics of attention. Determinants of attention. Perception: Nature, Determinants and Organization of Perception. Constancies - Size, Shape and Brightness. Perceptual illusions.

**Unit- IV**

Learning: Definition and types of learning. Theories: Classical conditioning, Operant conditioning, Cognitive learning and Observational learning.

**Objective :** To enable students to understand how individual behavior is influenced by social and cultural contexts and understanding of social problems in terms of various social psychological theories.

**Unit-I**

Attitude, Prejudice and Discrimination: Attitude: Nature, Function, Formation and Change. Methods of measurement. Prejudices and discrimination: Meaning, Nature, Origin and Reducing prejudice and discrimination.

**Unit-II**

Interpersonal attraction: Meaning, Determinants and Theories.

**Unit-III**

Pro-Social Behaviour : Personal, Situational and Socio- cultural determinants. Models of prosocial behaviour –Empathy Altruism Hypothesis, Negative state relief model, Emphatic joy hypothesis and genetic determinism model.

**Unit-IV**

Aggression: Theories, determinants, prevention and control of aggression. Social problems: Meaning and nature. Types: Poverty, population explosion, unemployment, female foeticide. Solutions to social problems.

**Objective:**

To develop an understanding of various statistical techniques and be able to organize and analyze data.

**Unit-I**

Introduction to statistics: Meaning and Scope of Statistics. Application of Statistics in Psychology. Nature and levels of measurement-categorical and continuous variables. Drawing of frequency distribution; Graphical representation of grouped data : Frequency Polygon, Histogram.

**Unit-II**

Measurement of Central Tendency : Purpose and types of measures. Characteristics and computation of Mean, Median and Mode.

**Unit-III**

Measures of Variability: Concept of variability, Range, Quartile deviation, Average deviation, Standard deviation.

**Unit- IV**

Correlation : The concept of correlation, Pearson's product moment correlation (by assumed mean and actual mean).Spearman's rank order correlation.
